Korea marks official launch of Carbon-Free Energy (CFE) Global Working Group

At the CFE Global Working Group kickoff meeting, Minister Dukgeun Ahn of Korea's Ministry of Trade, Industry and Energy (MOTIE) emphasized via a video message how Korea has been laying the groundwork for consensus building with various countries over the use of diverse carbon-free energy sources, sharing plans to continue discussions through the CFE Global Working Group. Head of the Clean Energy Ministerial Secretariat Jean-François Gagné also expressed strong agreement to the need for utilizing all carbon-free energy sources, voicing support for the CFE Initiative's role in the international community.

Improving Transport Data Collection and Policymaking in Egypt

Cairo, grappling with severe congestion and pollution, faces economic setbacks due to these issues, costing about 3.6 percent of Egypt's GDP. The city's rapid growth and significant contribution to Egypt's population and GDP worsen the situation. The World Bank is supporting the Egyptian Ministry of Transport with transport investment projects and institution building, emphasizing the digital transformation of the transport sector. Because of the KGGTF and World Bank support, the Government of Egypt is investing in sustainable transport in the region, and the emphasis on digital technologies to improve public transport services will further inform green growth investments in the rapidly growing city.

Grant: Egypt Green Transport Master Plan and Data Management System to Support Digital Transformation of the Transport Sector and Intelligent Transport Systems

Grant Year: Year 7 (2019)

TTLs: Nobuhiko Daito, Transport Specialist

The infographic is set against a solid blue background and is divided into three vertical sections. Each section features a white icon at the top, followed by text in white. The first section on the left has a network diagram icon, the text "ESTABLISHED" in small caps, and "Comprehensive Data Collection Platform" in a larger font. The middle section has an icon of two upward-pointing arrows, the text "EGYPTIAN TRANSPORT MINISTRY PARTNERS WITH KOREAN UNIVERSITY FOR" in small caps, and "Ongoing Capacity Building" in a larger font. The third section on the right has an icon of a bus and a person, the text "\$30 million invested" in a large font, and "IN WOMEN-CENTRIC ELECTRIC BUS FLEET" in small caps below it.

About KGGTF

The Korea Green Growth Trust Fund (KGGTF), a partnership between the World Bank and the Republic of Korea, is crucial to the World Bank’s vision of creating "a World Free of Poverty on a Livable Planet." Since its inception in 2012, KGGTF has been a technology-driven and implementation-focused trust fund, supporting partner countries in developing innovative and sustainable solutions, strategies, and investments geared towards Green, Resilient, and Inclusive Development (GRID). The KGGTF portfolio has supported 237 green growth programs and activities worldwide, amounting to approximately \$129 million and linked to over \$24 billion in World Bank Group lending and external co-financing.

For more information about KGGTF activities please visit our website www.wbgkkgtf.org.
